**GIRLS TRY IT!  
HAVE THICK, WAVY,  
BEAUTIFUL HAIR**

EVERY PARTICLE OF DANDRUFF  
DISAPPEARS AND HAIR  
STOPS COMING OUT.

DRAW A MOIST CLOTH THROUGH  
HAIR AND DOUBLE ITS  
BEAUTY AT ONCE.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Dandierine hair cleanse." Just try this moisture cloth with a little Dandierine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil, and in just a few moments you have doubled the beauty of your hair.

## EASY WAY TO MAKE HAIR ATTRACTIVE

Ladies May Add to Their  
Appearance With Little  
Trouble

Ladies who find trouble in properly or attractively arranging and dressing their hair should try using a little Parisian Sage twice daily for a while and note the remarkable improvement. Parisian Sage, which can be obtained from Lee & Osgood Co. or any drug counter, makes the hair soft, lustrous, fluffy and wavy, takes out the dandruff and stimulates the hair roots into healthy and normal action. Instead of merely sprinkling the hair, it should be rubbed right into the scalp with the finger tips. Parisian Sage is a delightful treatment for both hair and scalp, cannot possibly injure the hair, and is very inexpensive.

**Irritable Children Often Need Kickapoo Worm Killer.**  
There is a reason for the disagreeable and fretful nature of many children. Think of the unrest when the child's body is possessed by tiny worms sapping its vitality and clogging its functions. Whatever may be the cause—"That children have worms is a fact." You can see their nervousness and irritability has a cause. Give Kickapoo Worm Killer a chance and if worms are there, this humanly harmless remedy will eliminate the annoying parasites. 25c a box.

**Aspinook Company Building 1,400 Foot River Wall—Mill Employes Catches Arm in Gear—Rohan-Shea Wedding.**

A visit across the Quinebaug these fine days to the place where the Aspinook company is building the big wall along the river front is of much interest. The big wall itself is nearly completed and the workmen are placing a pier for the bridge well out in the river. Especial care is being taken to secure a deep and solid anchorage, as in winter the ice forces are very strong must be the structure to withstand the pressure.

The wall is 1,400 feet long and contains thousands of tons of rock, all of which was blasted from a nearby ledge. The river now from the dam to several hundred feet below the plant is faced by a solid wall. On the Lisbon side, as soon as the bridge is completed, all the ashes from boilers will be carried across and to make up the backing of the new wall. There will be room for the disposition of several hundred tons of refuse.

The view of Jewett City and the Aspinook plant as seen from the level of the sluices above the ledge is exceptionally attractive. There the observer can see, spread out far below him, a model establishment of its kind, with nothing left undone of line way of improvement. And from no other point is the view of Jewett City half as fine as from these heights. Time was when the building of a pier in the middle of the Quinebaug at this point, that would withstand the battering it would be required to when the ice moved out in late winter, would be well nigh impossible. At present the big dam proves its efficiency each year in holding back the big ice runs that used to occur, hence the company and the contractors have now no anxiety about building as it is only winter pressure that the pier must stand.

**Caught Arm in Gear.**

An employe named Alexander caught his arm in a gear in the print room at the Aspinook bleachery Monday morning.

He was taken to Dr. J. H. McLaughlin's office where it was found necessary to take forty stitches to close the wound. The cut was between the elbow and wrist.

Miss Abby Long of New Haven was the recent guest of Miss Bridget Sullivan, on the East Main street heights.

**Walnut Crop Short.**  
The shagbark walnut crop is very light this year, as it was last year. Oriskany, a few years ago, produced from 50 to 75 bushels of the finest nuts which found a ready market at \$3.00 per bushel. Today it is doubtful if there are five bushels in the town.

and picturesque regions in the world. It has been termed the quintessence of the East. For nowhere else will you find, thrown together in close association, so many things of the East—the camel caravan; the groves of cypresses, olive, plane and valonia trees; the mosques and lowering minarets; latticed windows and veiled women; and a background made up of the remnants of an ancient civilization.

"Rhodes, whose history is one chapter after another of fascinating romance from days of remote antiquity through its reign as a cultural center during the age of Roman occupation, and its golden period as the stronghold of chivalry during the occupation of the island by the order of the Knights of St. John, once dominated the eastern Mediterranean; as a vast pocket England off the coast of Asia Minor.

"Cicero and Caesar finished their education at Rhodes, but imperial Rome and Byzantium finally absorbed the schools of Rhodes. Next the Knights of St. John, founded in the 11th century at Jerusalem, after many hardships, brightened again the annals of the island, making it their home. They assumed the name of the Knights of Rhodes, and after innumerable wars, were at last, forced to Malta. At the present time the island is being held by Italy, which took possession in 1912, in the course of her war with Tripoli.

"Chios, 150 miles to the north, once one of the richest members of the Ionian group, subject, in turn, to Athenian, Roman, Italian and Turkish domination, has long been a bone of contention between the Turk and Greek, and was first reunited to its parent country, Greece, in 1913, after a separation of more than 2,500 years.

"The Chians joined their brother Greeks in the wars of liberation, which began in the first years of the last century. In 1822, the Turks slaughtered 30,000 Chians in the space of two months, and sold 32,000 others into slavery, and the land was thoroughly devastated.

"Samos, at the mouth of the bay upon which stood ancient Ephesus, the birthplace of the philosopher Pythagoras, and here, too, was the wonderful Temple of Hera, a boast of the Grecian world.

"The Islands of the Aegean taken together constitute one of the most historic and interesting island regions in the world. Besides the 21 principal ones, which have been much to history, there are innumerable smaller ones. The larger islands have a number of fertile and well-watered valleys and plains, the principal products of which are wheat, wine, oil, mastic, cotton, silk, raisins, honey and wax. Coral and sponge fisheries are numerous, and in most of the islands the ancient Greek type of personage among the people."

Washington, Oct. 25. — Conditions throughout Mexico are showing marked improvement, according to an announcement today by Secretary Lansing. The secretary gave an optimistic report of the situation to George Dalmatoff, the Russian ambassador, who made inquiries today preparatory to his departure for Moscow. It is believed, to advising his government concerning recognition.

The British and French ambassadors recently made similar inquiries and it is now believed recognition of the Carranza government by many of the European powers will follow soon.

**18 POUNDS OF BLOOD**

Is the average quantity in a healthy adult, but it is the quality of the blood that determines our strength to resist sickness. With weak blood we find cold hands and chilly feet; in children an aversion to study, and in adults rheumatic tendencies.

In changing seasons get abundant fresh air and take a spoonful of Scott's Emulsion after meals, because Scott's Emulsion is a rich blood-food that will increase both quantity and quality of the blood while it warms the body and helps carry off the impurities.

When multitudes of people are today taking Scott's Emulsion to avert winter sickness, and are giving it to their children, it is careless to neglect its benefits. Look out for substitutes. Scott & Borne, Bloomfield, N. J.
